

TWIN / CLICK OFF

Forefoot Screw System

TWIN

Two threads, precise placement, stable compression

Cannulated compression screws in different diameters for a wide range of indications. Compression is achieved by different thread pitches at the screw head and screw tip. The reverse cutting edge facilitates removal.

CLICK OFF

For fixation of small bone fragments and osteotomies in the forefoot. CLICK OFF screws are self-drilling and self-tapping. The screw is inserted directly into the bone.

TWIN Compression Screw

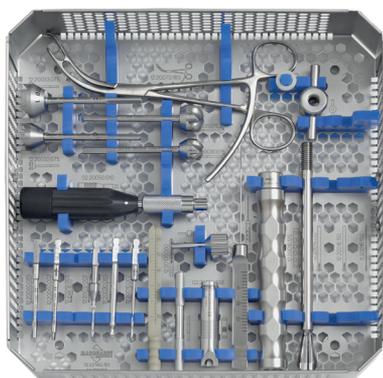

Compression due to
different thread pitches
at the screw head and screw tip

Reverse cutting
for easier removal when needed

Color coding GREEN / GOLD
for quick differentiation

TWIN / CLICK OFF Instruments

TWIN Screw Ø 2.4 / 3.2 mm, cannulated

12.03324.xxxS

Thread Length 4 - 13 mm

Length 12 - 40 mm

CLICK OFF Screw Ø 2.0

12.03402.xxx(S)

Length 10 - 17 mm

CLICK OFF Screw

self-drilling and self-cutting

Insertion interface

TWIN Screw Ø 3.0 / 4.0 mm, cannulated

12.03340.xxx(S)

Thread Length 5 - 12 mm

Length 10 - 40 mm

Staple Ø 1.0 mm

12.91009.xxx(S)

Angle 90°, 60°

Staple Ø 1.6 mm

12.91511.xxx(S)

Angle 90°, 60°
